This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

STATE OF THE ACCOUNTS

VOLUME ONE.

PREFATORY NOTE.

A complete set of the accounts of the Lieutenants and Sub-Lieutenants of the several counties of Pennsylvania during the War of the Revolution would certainly be a desideratum. They may at the first glance appear to be mainly statistical, but in reality contain much that will give an insight into the struggle for independence. They give the times of warning the militia, the services of the recruiting officers of the Pennsylvania Line, the names of many who fell in battle, the county contributing to the support of their widows, with the names of many soldiers who served at one time or another a tour of duty, and yet when business or other necessities prevented paid their fines like patriots should. These exercise men are to be distinguished from the non-associators, men who never even shouldered a gun or countenanced the great struggle for liberty. It is presumed that all the former were in actual service when the call to arms was urgent—notably in 1776 and 1777—and again in 1778. In many instances, the exercise days interfered with their business, farming especially, and a fine paid was better than the neglecting of their several occupations. These accounts give us the military service of many whose names do not elsewhere appear upon our records. For these reasons, the accounts are published in the Archives, not only for preservation, but for permanent reference. It is proper, in conclusion, to state that in most instances the names are spelled phonetically, and the correct orthography must be left to those searching the records. Again, it is possible that this series of documents are not absolutely complete, but that is only an additional reason for their publication at this time.

OF THE ADDITIONAL TAXES UPON THOSE AGED ABOVE FIFTY-THREE YEARS, AND UPON NON-JURORS; ALSO THE TAX UPON CASH IN THE CITY AND SEVERAL COUNTIES.

By an act passed December 26, 1777, for making more equal the burthen of the public defence, &c. the estates of persons above fifty-three years of age, and not militia men, are directed to be taxed annually in a sum equal to the amount of state tax thereupon, to be collected and paid into the Treasury, for the use of the state, which continued in force until Nov. 27, 1779.

There hath been an additional tax upon non-jurors, which the law directs should be paid into the Treasury.

By the act for raising the quota of the forty-five million tax, passed the 10th of October, 1779, and the act for raising the first eight monthly taxes, a tax of three pence per pound was laid upon cash.—No monies have been paid into the State Treasury by any of the County Treasurers on account of the above taxes, except the following, viz:
